

src/core/general/types.h

```
graph TD; A[src/core/general/types.h] --> B[stdint.h]; A --> C[limits]
```

The diagram illustrates a header file dependency. A central box at the top, labeled 'src/core/general/types.h', has two blue arrows pointing downwards to two separate boxes below it. The left box is labeled 'stdint.h' and the right box is labeled 'limits'. This indicates that 'src/core/general/types.h' includes or depends on both 'stdint.h' and 'limits'.
